

APPLICATIONS

Designed to covert 4' or 8' T12 or T8 industrial and strip fixtures to more efficient LED technology. The RKSC-LED kits utilizes a universal socket bracket engineered to fit most fluorescent channels from 4" to 5.25" in width. The cover and the LED module are easily maintained after retrofit is complete. The LED module is easy to install in channels and requires only simple hand tools.

FEATURES & BENEFITS

- ◆ Easy to install and maintain
- ◆ Mounts easily with simple hand tools
- ◆ Die formed cold rolled steel body
